harshitai19@navgurukul.org

A girl who always wants to learn unique things and something innovative, Navgurukul is the one platform by which I learned many things, by which I can show my punctuality, hard work, and efforts towards my works. I am always curious to learn new things.

The academic period spent in **NavGurukul** so far.

7 months

Technical-Skills Python

Saral Request API([code](#))

SARAL is the website of Navgurukul by which we are learning the basics of programming and related basic skills. Using the API of SARAL we got to know how to fetch data using the **Requests** library in python and to present data in a different manner.

Hangman ([code](#))

It is the guessing game in which I've used python to gain best practices in coding. In which there are 3 levels of game, easy, hard, and medium to get random words by using random function.

KBC([code](#))

Here I've made a kind of **KBC game**,. Which gives you some questions with four options. If you'll able to give correct answers, you can move forward and there is also 50-50 option you can use as a lifeline

Algorithmic problems in Python([code](#))

I have solved Basic algorithmic problems and pattern problems, from **codechef**. (In which I am pursuing the course of data structures and algorithms.)([doc_of_codes](#))

NDTV_data_scraper([code](#))

I've scraped the news headline and images, URL of news, etc by using **BeautifulSoup** and **Requests library**, in which you can get the news of every page that is known as pagination

Pickle_data scraper([code](#))

Using **BeautifulSoup** and **Requests library** to scrape the data of pickles from Paytm mall website, In which you can get the name of Pickles, the price of pickles, URL, and images of pickles, etc.

Projects

Non-Tech Experience

Health and coordinator at Navgurukul

I learned to manage the processes of healthcare, I have worked on this post for 5 months, during this period I have made good bonds with every member, while doing this work I have learned many things regarding health and medicines.

Mentorship

I was Mentoring some students as a mentor. I gave my learning or pass my learning to my mentees. by sharing or guiding them I've improved my confidence level and communications skill also.

Student Admissions at Navgurukul

I was part of the Admission Team of Navgurukul, I was taking an English interview for admission. As I interviewed around 40 students, which helped me to improve my articulation while explaining things to students.

Education

University of delhi (swami shraddhanand college)

Completed class 10th in March 2014, class 12 in Feb 2016, and Graduation in bachelor of sciences in life science from the University of Delhi swami shraddhanand College Delhi in Jul 2019

NavGurukul

Learning Software Engineering with a one-year residential program and also learning many social & teamwork related skills.

NavGurukul started by an IIT-D alumnus & Entrepreneurs runs a one-year intense course for *academically bright students* to learn programming & get high-paying jobs. Students learn without a teacher & hence are self-starters and problem-solvers. You not only hire someone talented & loyal but also help in increasing workplace diversity.
